

# TRUST NAVIGATOR

A National College Enrichment Program

## Virtual Business Leadership Internship

### Who We Are:

TrustNavigator is a not for profit organization offering career enrichment internships and programs. The goal of the internships is to offer students the tools to be successful to matriculate into successful careers. To accomplish this goal, we provide internships, reward driven work related projects and introductions to mentors in potential areas of career interest. On campus events and the internship curriculum assist college students to apply life skills thru experiential learning, expanding value as citizens on campus, and learning networking skills.

### Why work with us:

Do you want an experience that you cannot get anywhere else? Do you want legitimate projects that are truly relevant to your career goals? We have designed our internship program to provide this! For the career seeking student this is an experience to understand and network in this space. You will work with our staff and network with industry mentors if you are focused on a career not a scavenger hunt for a job. If you are a highly-motivated individual with **high moral aptitude** who is looking to gain knowledge, experience and the skills to network, then this is the perfect internship for you!

### Internship Description:

**The Virtual Business Leadership Internship will be offered virtually through an engaging, experiential online platform and weekly conference calls.** Each week we will host a call with a mentor specializing in a corporate responsibility critical to an organizations success. You will receive ten weeks of networking, introductions and tutoring in all areas of a corporate structure including:

- Leadership: Starting an organization and risk parameters to consider.
- Marketing: Putting together marketing plans and data analysis.
- Finance: How to budget, create revenue models, and projections.
- Sales and sponsorship: Implementing the sales of sponsorship and membership.
- Operations: Working with suppliers and vendors, cost analysis pricing.
- Benefits: Within an industry to find the right job and culture.
- Employment: Human Resources and interviewing skills.

### Skills/Qualifications:

- Great communication skills. High integrity.
- An interest in business or entrepreneurial experience.
- The ability to manage your time between school, extra-curricular activities, and this internship
- A great work ethic. An interest in learning the "business" environment.
- An open mind to understand what we are trying to teach.

### Compensation:

This internship is an apprenticeship in leadership. The internship includes networking with experienced veterans of the industry with direct access to these individuals both for mentorship and career advisory in the field. The apprenticeships are designed for those without industry experience to get a "first exposure" with quality oversight and fully compliant with all Department of Labor standards to learn the industry. Inexperienced applicants should not expect to be compensated to learn the skills necessary to enter employment. Individual sessions with advisors are part of the program to create a potential plan to employment.
